

Using call outs for labelling

1	Right click on the grey area at the top of the screen.
2	You will see a list of toolbars. Click on <i>Drawing</i> so it is ticked
3	It will appear at the bottom of the screen.
4	Click <i>Autoshapes</i> and choose <i>callouts</i>
5	This gives you types of speech bubbles in different formats which you can use for labelling, for dialogues etc.
